Safe Environment

Description

Institutional Goal #5 ensures that CCBS maintains a safe and supportive learning environment with appropriate protections, reporting structures, and student support systems. This includes Clery Act compliance and student perceptions of personal safety and classroom security.

Methodology

CCBS evaluates campus safety using two primary measures: (1) annual Clery Act reporting, which documents campus crime statistics and compliance, and (2) the Adult Student Priorities Survey (ASPS), administered every two years, which provides nationally normed data on student perceptions of safety, care, and support. CCBS compares results to national benchmarks and internal standards for continuous improvement.

Clery Act Compliance

Reporting Year	Issues Reported
Fall 2021	0
Fall 2022	0
Fall 2023	0
Fall 2024	0
Fall 2025	0
Average	**0**

Student Perception of Safety (Adult Student Priorities Survey 2025)

Measure	Cohort Size	National Norm	CCBS
Students feel safe, cared for, and receive timely help.	140	5.81	6.63
Classroom locations are safe and secure	140	6.40	6.77

Previous cycles also exceeded norms (2021, 2019, 2023).

Summary

CCBS exceeded the national norm on both safety measures in 2025. Results from the 2019, 2021, and 2023 survey cycles also exceeded national norms, indicating a consistent pattern of positive student perceptions of campus safety and support.
